

## Vision Of Success Get Known Challenge!

If you've ever wanted to take control over your life, now is the time to act on that desire. There has never been a better time to start that business, build it into a success, take advantage of every opportunity that opens its door to you, and enjoy the rest of your life the way you want it to run! That's what I'm doing, and I want to share that success with you!

Hi, my name is Lori Osterberg. I have been where you are today. I began my career by going to college to get a great job. I worked hard at getting a great job, and worked my way up the corporate ladder. But with each rung, I felt like something was missing. With every raise, more of my money went to Uncle Sam. My job was never secure, and I wasn't creating anything strong for my future, or for my family's future. I missed my daughter when I traveled. And I never felt like I was contributing all of me to something that I felt strongly about. So I decided to make a change.

I changed and created a business that provided everything I was looking for in life. I am in charge of making as much money as I want. I am in charge of my own security – if I want more clients, I work a little bit harder. I have established several different streams of income to ensure my security, and the security of my family. I travel when I want, I work when I want, I vacation when I want; and most important, I understand the implications of each choice. And best of all, I am now contributing to society in a way I feel very strongly about! This is the life I was born to live!

The hardest part of making that change was to make the commitment to do whatever it took to move myself into a

new position. To move in a direction that would provide a successful life for my family and me. No matter your present circumstances, the only way to move ahead is to take that first step and make a commitment to become a successful business owner. It begins by making a plan and creating the steps necessary to get where you want to be. It begins by taking the Get Known challenge, and creating your own Vision Of Success!

The Vision Of Success guide map is a way for you to begin thinking about your future, and what it holds in store for you. The only way to put your dreams into reality is to put your dreams down on paper, and use them as guidelines to make that dream a reality! Print out this form, spend some time thinking about each question, and then write what you feel. There are no right or wrong answers. Only you can decide what is in store for your life, and how you will move towards making that life your reality – for you and your family!
